

Before

After

Differences in the formatted artwork:

- 1. Enhanced overall figure quality for improved clarity and consistency.
- 2. Standardized brightness levels across all grayscale images without affecting figure visibility.
- 3. Adjusted image dimensions to ensure uniformity and alignment with journal specifications.
- 4. Modified font type and size of sub-part labels (A, B, C) as per journal guidelines.
- 5. Resized individual panels to enhance visual presentation and meet journal-imposed size limits.
