Artwork Editing Report

;enago™

An Award-Winning Organization Committed to Supporting the Research Community across the World

Message from the Artwork Reviewer

Thank you for choosing Enago to assist you in editing artwork. We have carefully reviewed your artwork with respect to the journal guidelines and have made appropriate changes to meet the requirements. We have also thoroughly checked your artwork for consistency and technical accuracy.

We request you to check the files and send them back for revisions, if necessary, within 90 days. We would be glad to assist you. Thank you again for choosing Enago to help you!

--------------------	---

List of Changes

Filename: Figure 1.tiff

Resolution	The resolution of the image was checked and changed to 300 dpi to meet the journal guidelines.
Color Requirements	The image mode was changed to RGB to meet the journal specifications.
Image Dimensions	The width of the image was changed to 180 mm and height of the image was changed to 69 mm to meet the journal guidelines.
File Size	We reduced the file size to meet the journal specifications. The image is now less than 10 MB, as per the journal requirements.
Font Usage	We checked the journal guidelines and determined that the font of the text required no change.
File Formats	We have changed the file format of the image to TIFF to meet the journal guidelines.
Line Weights	This attribute is not applicable to this image. We have changed the line weights to meet the journal specifications.
Bit Depth	We checked the journal guidelines and no adjustment was required. The bit depth of the image was checked and we have changed it to 16 bits to meet the journal guidelines.

Compression	We have applied LZW compression to meet the journal guidelines.
Text and font	We checked all spellings and casing and have made certain changes. Please check these changes carefully.
Image Panels	The image panels were adjusted to meet the journal specifications.

Filename: Figure 2.tiff

Resolution	The resolution of the image was checked and changed to 300 dpi to meet the journal guidelines.
